

CR Number: 66

External Reference: CR 1082

Category: Diesel Emissions Data in Inspection Reports and Snapshots

Component: Snapshots

Synopsis: A group of states is seeking to include diesel emissions data in inspection reports and flags in snapshots for interstate enforcement of environmental regulations. Corresponding CRs should be issued for changes to ASPEN and/or other inspection support systems.

Status: Open

Disposition: [2006-11-21] Open - will be posted to listserv to vote on closing as an arch CR.

Description: [2000-06-09] DJ Waddell
A group of states is seeking to include diesel emissions data in inspection reports and flags in snapshots for interstate enforcement of environmental regulations. Corresponding CRs should be issued for changes to ASPEN and/or other inspection support systems. The original emails from Massachusetts and New Jersey are attached. Also attached are two presentations made originally at the Eastern States CVISN Design Workshop that spell out the proposal.

[2000-10-27] DJ Waddell
Analysis is provided in the attached file Diesel Emissions.doc

[2006-03-29] Presented again at the 2006-03-23 ACCB meeting.
This CR was originally proposed by MD in June, 2000. MD said that sharing this data is important for the northeastern states, subject to Department of the Environment regulations. It would be very helpful if ASPEN supported diesel emissions data. APL will contact east coast states to see if they are still interested. WA will check with state patrols.

[2006-05-26] Discussed at the 5/18/06 ACCB meeting.
APL will transfer CR 66 (Diesel Emissions Data in Inspection Reports and Snapshots) to the I-95 Corridor Coalition for further investigation.

[2006-07-26] Discussed at the 7/20/06 ACCB meeting.
Mary Stuart contacted Marygrace Parker from the I-95 Corridor Coalition. Marygrace recalled that analysis was conducted a few years ago by I-95 and thought that an ASPEN CR had been submitted. She will look for the documentation. Mary Stuart noted that requirements are needed and suggested keeping the CR open until further analysis is done.

[2006-11-21] Discussed at the 11/16/06 ACCB meeting.
No states have expressed an interest recently in pursuing the addition of diesel emissions data in inspection reports and/or snapshots. It has been suggested that this CR be closed.
